The number of University Senators to be apportioned is	29	The entry to the right is called the standard divisor. The standard divisor is the total number of faculty divided by the number of University Senators to be apportioned	11.8966	0	The entry to the left is called the Modifier (to the standard divisor) or "d-value". The default value of the Modifier is zero, and a nonzero Modifie will be added to the standard divisor and used in the calculation of the Modified Standard Quotas for each division should the number of University Senators apportioned using a modifier of zero not be equal to the number of seats available. The Modified Standard Quota is the number of faculty in the division (academic unit) divided by the sum of the standard divisor and the Modifier.

II. Section 2.A.1. By September 15 of each academic year, the Executive Committee shall obtain from the Office of Academic Affairs a list of the faculty who are members of the Corps of Instruction. This list shall also indicate the academic unit [College or Library] to which each member of the Corps of Instruction is assigned. The Executive Committee shall apportion thirty-four (34) of the elected faculty senator positions among the Colleges and the Library in a manner consistent with II. Section 2.A.2. Each of the remaining three (3) elected faculty senator positions shall be designated as an at-large elected faculty senator position representing the entire membership of the Corps of Instruction. For each elected faculty senator position, only members of the Corps of Instruction are eligible to vote.

II.Section2.A.2. The exact number of elected faculty senator positions apportioned to each academic unit shall be determined by the Executive Committee and announced to the University Senate by October 1. Each academic unit must be apportioned at least two elected faculty senator positions.

			1.											
*Note: A total of 34 Elected Faculty Senators are apportioned: (1) One to each academic unit (division) accounts for five (2) The remaining 29 are apportioned as above.
