

## FAPC Committee Session during Governance Retreat

### 1. Orientation and Assessment Sharing - Interchange of Information

### 2. What issues might need collaboration with another committee:

- Faculty group (like Staff Council, Student Government) – something that is separate from the University Senate
- Faculty Availability in Summer – potential for SAPC, APC, RPIPC involvement
- Balancing Workload and Scheduling – may get addressed with the new faculty evaluation process. Feels department sensitive. – if considered, possibly APC and RPIPC

### 3. Advocacy:

More perception that reality – it may actually be a common practice of FAPC. Just may need to be a broad reminder not to get stuck in minutia

IF there is a resolution to the University Senate that is broader than advocacy, it needs to cover all aspects of committee work.
