

SAPC notes from retreat:

We felt more collaboration and communication among committees and the university community in general could be achieved by including a single email announcement of posted minutes with a brief summary of the minutes (this would not be extra work, but perhaps would give additional incentive for folks to go check the minutes).

Work to consider for the year:

- 1) Sponsorship Policy (continued from last year)
- 2) Hazing Policy
- 3) Diversity tolerance policy (especially in dorm life and RSOs)
- 4) Definitions for sexual based crimes (rape, assault, harassment) and perhaps ways to address the culture of acceptance towards these crimes
- 5) Increase campus ethos through more involvement in campus life by faculty
