

Alex E. Blazer

Chair, ECUS

Report to University Senate

14 August 2018

- University Senate Goals
  - Continue to advise the University administration, review and recommend policy, and provide representatives to various university-wide committees, task forces, and search committees.
  - Review its procedures for selecting representatives to serve on university-wide committees, task forces, and search committees.
  - Review its standing committee structure.
  - Review the University Senator Handbook and other official university senate documents for accuracy, currency, and to align these documents with the University Senate bylaws.
- Presiding Officer Summer Work
  - This summer, I answered a handful of emails, drafted the Senate goals, and worked on the Retreat. Apart from the Retreat, there was not a lot to do. If there was a made policy change coming down from the USG, like a campus carry bill, there would be more to do.
- Strategic Planning Committee Representative
  - Senate needs a faculty volunteer to attend the first meeting of the Strategic Planning Committee on Thursday, August 16, from 2:00-3:30 p.m. in Atkinson 202. ECUS will gather additional information about the committee composition, meeting schedule, and so forth, and arrange permanent representation in the coming month.
